A particularly fine example of the evergreen Autosleeper Trident, built on an even cleaner VW 25. It appears to have been wax oiled from new, therefore is almost rust free. I say that because a 30 year old vehicle cannot be 100% rust free. It has covered 95000 miles with 4 owners. An excellent service history from the first two owners up to 2009. Apart from habitation tests the third owner has looked after it himself having only covered 11000 miles in the last 11 years.
